### **Thomas & Betts Introduces Steel City® Residential Floor Box Kit**

---

**MEMPHIS, Tenn. – June 2005** – Thomas & Betts now offers residential contractors a new solution for wood sub-floor applications with the introduction of the Steel City® 71W Series Residential Floor Box kit.

The Steel City 71 W Series Residential Floor Box is a complete kit that includes an outlet box, cover, flange and receptacle. The outlet box features steel construction and integral nonmetallic sheathed cable clamps. The metallic cover and flange are available in a brass or nickel finish to provide an aesthetic and functional floor box installation. The kit is offered with either a duplex or GFCI receptacle, and it is applicable for wood sub-floors with carpet, tile or wood floor coverings.

The new floor box meets UL scrub water exclusion requirements and is UL and CSA approved.

For more information on Steel City 71W Series Residential Floor Box kits, visit [www.tnb.com](http://www.tnb.com) or contact your Thomas & Betts sales representative by calling (800) 816-7809.

### **Corporate Overview**

Thomas & Betts Corporation (NYSE: TNB) is a leading designer and manufacturer of electrical connectors and components used in industrial, commercial, communications and utility markets. The company is also a leading producer of commercial heating units and highly engineered steel structures used, among other things, for utility transmission. Headquartered in Memphis, Tenn., the company has manufacturing, distribution and office facilities worldwide. In 2004, the company reported sales of \$1.5 billion.
